This Will Stop Your Cough in a Hurry

Save \$2 by Making This Cough Syrup at Home.

This recipe makes a pint of better cough syrup than you could buy ready made for \$2.50. A few doses usually conquer the most obstinate cough—stops even whooping cough quickly. Simple as it is, no better remedy can be had at any price.

Mix one pint of granulated sugar with 2 1/2 pints of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle; then add the Sugar Syrup. It has a pleasant taste and lasts a family a long time. Take a teaspoonful every one, two or three hours.

You can feel this take hold of a cough in a way that means business. Has a good tonic effect, braces up the appetite, and is slightly laxative, too, which is helpful. A handy remedy for hoarseness, croup, bronchitis, asthma and all throat and lung troubles.

The effect of pine on the membranes is well known. Pinex is the most valuable concentrated compound of Norwegian white pine extract, and is rich in gaulthol and all the natural, healthy pine elements. Other preparations will not work in this formula.

This Pinex and Sugar Syrup recipe has attained great popularity throughout the United States and Canada. It has often been imitated, though never successfully. A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggists has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

COTTON GROWS WILD ON WEST COAST OF MEXICO

Guaymas, Mexico, Jan. 30.—There are thousands of acres of land in Mexico along the line of the Southern Pacific railroad covered with wild cotton. The cotton grows on what might be called a big weed. It is a short lint, but is very good for making. The plant grows about five feet in height, with many branches, and these branches are literally covered with small bolls of cotton. If this plant were cultivated, thousands of tons of cotton could be produced each year and disposed of at a good profit.

FARMING TOYAH VALLEY IS LAND OF PROMISE

Farmers Expect Best Crops In 1913 the Valley Has Ever Known.

Pecos, Tex., Jan. 30.—Farmers of Toyah valley are looking forward to the season of 1913 with confidence. W. W. Stewart, who owns a 175 acre alfalfa farm near Balmorhea, says the season thus far has been the best that he has known since he has been in Toyah valley. Where it has been the usual custom to irrigate the fields during the winter months in order to get a good "season in the ground" it has been found this winter that this was unnecessary, owing to the heavy rains and snow.

Mr. Stewart was the man who brought the first alfalfa bull into this county, and he says that the good showing of last year made with alfalfa seed has encouraged a large number of farmers to plant for at least one seed crop this year. As high as \$105 the acre was made last year from one cutting of seed alfalfa. In spite of the fact that these farmers cost several thousand dollars, Mr. Stewart stated that there would be another one besides his own at work this season. He said that he had no fear of lacking work at that, either, owing to the large number who would have thrashing to do. Indeed, Toyah valley is no longer a stranger to the thrasher. Mr. Stewart, along with a number of other farmers, put in a large acreage of oats and wheat as a winter crop. He stated that these would be ready to harvest by the first of May and that the prospect were for a splendid crop. The idea of the diversified crop is gaining ground in the irrigated sections. The large number of options that have been taken in the last six weeks by northern capitalists who are already interested in Toyah valley, leads those who are acquainted with the situation to believe that the investments amounting to about \$200,000 that have already been made by these men, are but the first steps toward the reclamation of thousands of acres of what is now but raw land.

Cured her "We cured our little son of eczema with boy's eczema Resinol. His legs were as raw as could be. It began with just little pimples. He could not rest or sleep. The itching was so bad. We tried every remedy we could think of but they did not seem to do him any good. After he suffered like that for about three months, we then began to wash him with Resinol Soap, and then used Resinol Ointment. They cured him in about two weeks, and he has never had any symptoms of eczema again." (Signed) Mrs. M. J. McCollum, Easley, N. C.

GIRLS! GIRLS! SURELY TRY THIS!

DOUBLES BEAUTY OF YOUR HAIR

All you need is a 25 cent bottle of "Danderine"—Hair gets lustrous, fluffy and abundant at once.

Immediate!—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits, particularly those who have been careless, whose hair has been neglected or is

scrappy, faded dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies, and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use of Danderine, when you will actually see new hair—fine and downy at first—yes, but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.—Advertisement.
